

## 4-6 Man Life Rafts (Non TSO Approved) For General & Private Aviation

Lightest and smallest package on the market today, designed for private pilots and pleasure boaters. Comprised of buoyancy tube, deck, lifelines, CO2 automatic inflation system, boarding handles, retaining line, hand pump, bailing bucket, sea anchor, and valise.

Lightest weight and most compact - easy to carry, stow away, and manoeuvre in any emergency situation. Easily deployed by women, children, exhausted pilots, or boaters.

Soft-pack valise made of practically indestructible nylon with secure nylon velcro closures.

Constructed of heavy-duty FAA approved neoprene coated nylon fabric.

Optional highly visible orange canopy to aid in search and rescue operations.

Contains aluminium cylinders and valves eliminating corrosion and greatly reducing the weight.

High-tech CO2 automatic inflation system, inflates in 10 seconds.

Optional survival kits are available to meet individual requirements.

Lifetime warranty on parts and labour, built to last a lifetime with proper care.

Item	Part Number	Pack Size	Weight	Price
4-Man Basic	1400-1	4"x12"x14"	12 lbs.	2220.
4-Man w/Canopy Only	1400-3	4"x12"x14"	14 lbs.	2485.
4-Man w/Standard Kit	1400-1/1500-1	6"x12"x14"	19 lbs.	2700.
4-Man w/Standard Plus Kit	1400-1/1500-3	6"x12"x14"	20 lbs.	2850.
4-Man w/Deluxe Kit	1400-1/1500-5	6"x12"x14"	21 lbs.	3480.

Item	Part Number	Pack Size	Weight	Price
9-Man Basic	1900-1	5"x12"x14"	18 lbs.	2700.
9-Man w/Canopy Only	1900-3	5"x12"x14"	20 lbs.	3050.
9-Man w/Standard Kit	1900-1/2000-1	7"x12"x14"	29 lbs.	3360.
9-Man w/Standard Plus Kit	1900-1/2000-3	7"x12"x14"	30 lbs.	3525.
9-Man w/Deluxe Kit	1900-1/2000-5	7"x12"x14"	32 lbs.	4350.

## 4 - 8 Man Life Rafts FAA TSO-C70a, Type II Approved

### Non-Transport Category, Single Tube Design For Corporate or General Aviation

- Single tubes with bulkhead design creating two separate chambers.
- 4-person capacity with an overload of 6.
- Comprised of buoyancy tube, deck, lifelines, CO2 automatic inflation system, boarding handles, retaining line, hand pump, bailing bucket, sea anchor, and valise.
- Includes a stabilizing water ballast system and a water-activated locator light as required by the FAA.
- Lightest weight and most compact - easy to carry, stow away, and manoeuvre in any emergency situation.
- Easily deployed by women, children, exhausted pilots, or boaters.
- Soft-pack valise made of practically indestructible nylon with secure nylon velcro closures.
- Constructed of heavy-duty FAA approved neoprene coated nylon fabric.
- Optional highly visible orange canopy to aid in search and rescue operations.
- Contains aluminium cylinders and valves eliminating corrosion and greatly reducing the weight.
- High-tech CO2 automatic inflation system, inflates in 10 seconds.
- Optional survival kits are available to meet individual requirements.
- Lifetime warranty on parts and labour, built to last a lifetime with proper care.

## Survival Equipment Kits

The optional survival equipment is fitted into its own valise, externally separate from the raft valise. The equipment and raft valises are externally attached to each other utilizing velcro and a tie-line. These separate valises provide the ultimate in flexibility for raft and equipment combinations. You can now acquire your basic raft and equipment separately to meet your individual requirements. These kits are designed and prepared for both, Non TSO'd and FAA TSO-Approved aviation/marine use. The FAR 91, 121, and 125/135 survival equipment kits are available as well.

**\*\*Note:** Optional ELT/EPIRB can be packed inside survival kits.

### Standard Kit / FAR 91:

- |                                 |                   |                  |
|---------------------------------|-------------------|------------------|
| • canopy w/inflatable mast      | • 3 signal flares | • signal mirror  |
| • equipment container           | • first aid kit   | • food rations   |
| • signal flag                   | • raft repair kit | • water rations  |
| • 2-cell flashlight w/batteries | • sea dye marker  | • signal whistle |

### Standard Plus Kit / FAR 121:

- |                                 |                   |                  |
|---------------------------------|-------------------|------------------|
| • canopy w/inflatable mast      | • first aid kit   | • signal mirror  |
| • equipment container           | • raft repair kit | • food rations   |
| • signal flag                   | • utility knife   | • water rations  |
| • 3 signal flares               | • survival manual | • sponge         |
| • 2-cell flashlight w/batteries | • sea dye markers | • signal whistle |

### Deluxe / FAR 135:

- |                                 |                          |                   |
|---------------------------------|--------------------------|-------------------|
| • canopy w/inflatable mast      | • first aid kit          | • signal mirror   |
| • magnetic compass              | • fishing kit            | • 2 paddles       |
| • equipment container           | • raft repair kit        | • food rations    |
| • 8-pint desalter(s)            | • utility knife          | • radar reflector |
| • signal flag                   | • 75-foot retaining line | • sponge          |
| • 3 signal flares               | • survival manual        | • signal whistle  |
| • 2-cell flashlight w/batteries | • sea dye markers        |                   |

\*Note: Food/water ration quantities appropriate for raft capacity

## Watermaker "Survivor 06"

**Take the Survivor along with you and forget your fresh water worries.**

Drifting on the open sea used to create the age-old dilemma: water, water, everywhere, but not a drop to drink.

That's all changed. Now you can produce fresh drinking water with the Survivor-06, a revolutionary innovation in water purification. And you can finally quit worrying about fresh water for emergencies.

Survivor desalinators are the first of their kind. They're the only manually operated reverse osmosis (RO) in seawater and great-tasting chemicals or perfect weather conditions. You get fresh water a long as you pump. No batteries, generators, or alternators either.

Survivor-06 hand pump combines reverse osmosis and energy recovery technology to make pure, drinkable water from salt, brackish or contaminated fresh water. In about ten minutes, you can make a cup of water with virtually all sea salts and other contaminants removed.

Its simple design plus energy recovery technology make Survivor-06 comfortable to use for long periods of time. And its ultra-compact size makes the Survivor-06 easy to operate and store in an emergency survival kit or life raft valise.

<b>SPECIFICATIONS:</b>		
Dry Weight	2.5 lbs.	1.1 Kg.
Rate of Water Purification	1 cup/13 minutes	.24 liters/23 minutes
Height	5"	13 cm
Length	8"	20 cm
Width	2.5"	6 cm
Maximum Suction Height	10"	300 cm
Feed Temperature	33 F to 120 F	1 C to 48.5 C
Minimum Salt Rejection	98%
