

SERVICE LETTER

PR600 Programming Equipment (P/N 1201570)**1. REASON**

MARTEC Serpe-lesm has developed a new programming equipment, PR600, intended to program all its range of ELTs and programming dongles. PR600 Programming equipment kit P/N 1201570 replaces the former PR550 Programming Equipment kit

P/N 1200362 and fulfills the same programming functions. PR550

Programming Equipment kit P/N 1200362 is no more available.

2. COMPATIBILITY

PR600 Programming Equipment is compatible with any types of ELTs and Programming Dongles manufactured by MARTEC SERPE-IESM.

3. DESCRIPTION PR600 Programming Equipment is a miniaturized and lighter version of PR550 Programming Equipment:

- Dimensions: 60 x 40 x 20 mm (2.36 x 1.57 x 0.79 in.).
- Weight: 70 gr. (0.154 lb.)

The main advantage of PR600 Programming Equipment is that it has to be connected to a PC or Laptop via an USB port. PR600 Programming kit (P/N 1201570) is composed of:

(1) PR600 Programming interface module;

(2) USB cable;

(3) WinProg⁽¹⁾ Software run on a PC with Windows® operating system;

(4) Suit case for storage and transportation:

Dimensions: 222 x 160 X 60 mm (8.74 x 6.3 x 1.54 in.). NOTE: (1) PR600 Programming Equipment must be used with WinProg software Version 2.00 or higher.

Figure 1: PR600 Programming equipment kit

PR600 programming interface module is fitted with:

- (1) An USB connector to connect PR600 to a PC or Laptop.
- (2) A cable fitted with a DIN-12 male connector to connect PR600 to an ELT.
- (3) A DIN-12 female connector to connect PR600 to a programming dongle.
